

Widchard Faustin

Email: faustinwid@gmail.com | LinkedIn: www.linkedin.com/in/w-f-275chs/

Education:

Drexel University - Pennoni Honors College	Philadelphia, PA
College of Computing and Informatics - Bachelors of Science in Computer Science	GPA: 3.61
College of Computing and Informatics - Masters of Science in Computer Science	GPA: 3.40
<i>Expected Graduation Date: June 2021</i>	

Skills:

Programming Languages: HTML/CSS, PHP, JavaScript, Node.JS. React, Angular, Java, Python, C, C++, C#

Database Management: Google Firebase, MySQL, MongoDB

Software: Microsoft Office Suite, Maya, Unity, Jira, Adobe Photoshop, and Adobe Illustrator

Coursework:

Web App and Mobile Development	Software Engineering	Game Development Workshop I & II
Software Reliability	Graphical User Interfaces	Operating Systems
Systems Programming	Database Management Systems	Intro to Artificial Intelligence

Technical Projects:

Ragball - Drexel University January - March 2020

Programmer

- Worked in a group of 10+ students to develop, refactor, and polish a 3D sports party game
- Helped design the architecture and implement the movement and scoring system aspects of the game
- Documented and fixed multiple game-crashing issues during the polishing phase of the game

Sone - Drexel University

September - December 2018

Programmer and UI Artist

- Collaborated with a group of nine other programmers and artists to create a 3D horror exploration game in 10 weeks
- Implemented Horror Monster AI and Player Movement and Ability Systems; designed user interface artwork and menus to help players navigate through the world
- Gathered playtesters to test the game and give relevant feedback

Icebreaker - Drexel University

January – March 2018

Programmer

- Worked in a team of 5 students to create a web application that would allow users to network with each other over common interests by asking them questions about their interests and hobbies
- Developed a room endpoint that would host all the users and allow them to pose questions to each other to gauge interests in different topics

Work Experience:

Software Test Engineer - Nuix North America

April – September 2019

- Performed in DevOps and Agile environment on a team of ten QA Engineers; developed and executed hundreds of automated and manual tests to validate the Nuix Investigate application
- Supported software development cycles and application releases; collaborated with other test engineers to enhance and create new testing procedures
- Archived and sorted all of the known manual and automation regression tests to identify existing gaps in the automation test suite
- Conducted and participated in training sessions for new QA hires and interns

Course Assistant - College of Computing and Informatics

September 2018 – December 2019

- Hold personal office hour sessions to answer students' questions and assist the teacher with extra course materials
- Support 4 courses with a population ranging from 40-360 students; grade student submissions that included but were not limited to quizzes, written homework assignments, programming assignments, midterms, finals, and lab reports
- Participated in the development process of organizing curriculum with other assistants and teachers

Senior Dean's Ambassador - College of Computing and Informatics

September 2017 – Present

- Work with Drexel Recruitment and College of Computing and Informatics (CCI) to help prospective students learn about Drexel University and computer science
- Lead a team of Dean's Ambassadors in participating in Open Houses, Accepted Student Days, and high school workshops; worked with 4 other Senior Dean Ambassadors to manage and staff over 50 events
- Serve on student panels, tours, and online meetups to help inform incoming and transfer students about CCI
